

R.A. Brown Ranch Commercial Heifer Sale - Supplement Sheet

Commercial Heifers will sell on Wednesday, March 13, 2024 – approximately 11:55 am

- The commercial heifers will sell following the Registered Angus and Black/Red Bulls, and just before the Red Angus Bulls. Video of each consignment will be available at RABrownRanch.com/Upcoming Sale and at the sale site on sale day.
- Larger lots will be sold in “gate-cut” sorts of approximately 5-12 head. The winning bidder will have the option of taking subsequent and consecutive gate cut sorts from the same lot, and at the same bid price.
- This information takes precedence over that printed in the sale catalog. Announcements from the auction block take precedence over this and information printed in the sale catalog.
- The Commercial heifer lots represented below will be sold FOB their respective consignor’s ranch.
- Payment must be made prior to buyers taking delivery of the heifers. Successful bidders will be provided bank wire instructions following the sale.

Breeding Guarantee: Breeding Guarantee: All commercial Females identified as “Bred Heifers” sell safe in calf. They have been determined pregnant by a competent ultrasound or palpation technician. As it is common for a small percentage of females to lose a pregnancy between palpation and calving, if prior to May1, 2024 it is determined (by competent palpation/ultrasound technician) that one of the commercial females you purchased in this sale is not pregnant, then please call us and you will be reimbursed by the seller of the heifer(s) the difference between her purchase price and her salvage value.

Commercial Heifers will sell in catalog order.

I left one of the best bulls in the sale out of the catalog. He has two full brothers selling as lots 123 & 125. Three full brothers were some of our highest sellers in our sale last October including NOBLE who has a full page ad at the back of this sale catalog where we are selling his semen. The mother of these bulls is amazing as you can see by the consistency in which she produces genetic excellence. He will sell immediately after lot 125.

GTLS														

The most elite donor cows in the breed are very rare, but the dam of these embryos is one of those special, elite cows. Lee Leachman and I both started trying to buy this cow three years ago from some of our long time Cooperators who raised her, Truett & Lila Spruill. To date they have not been willing to part with her, but Truett has a special story. He endured massive wildfires in 2006 and again in 2022 losing most of his grazing, hay, fences and his home both times. Truett is an amazing person and a powerful prayer warrior. He came through both fires helping his neighbors and giving glory to God for the blessings he had. He is a modern day JOB. This cow lived through the 2022 fire and he so fittingly named her Glorify. Be looking for her sons in our upcoming sales named Shadrack, Meshach, and Abednego who will continue to add notoriety to this amazing cow. These embryos are full sibs to Brown GTLS Titus K6257 (see semen ad in the back of the catalog) who I believe is one of the top bulls in the breed today. We plan to use him heavily in our breeding program. Opportunities to buy embryos like this are rare - Invest in the best to help take your herd to the top. Buyer pays 3 times the bid price and gets the fourth embryo as the guarantee.
