

Angus Bull Sale Catalog Data

Angus EPDs and Percentile Ranks:

CED - Calving Ease Direct
WW - Weaning Weight
Milk - Daughters Milk Production
BW - Birth Weight
YW - Yearling Weight
MARB - Marbling
RE - Rib Eye Area

Percentile Ranks: Percentile ranks indicate where this animal's EPDs rank vs. other non-parent animals in the AAA database. A 10% rank indicates that animal is in the top ten percent of the over half a million non-parent animals in the AAA database

Sale Lot Number:

All bulls and registered females sell in catalog order

Animal ID:

Animal's Tattoo No.

Herd: identifies cooperator (herd of origin.) Go to RABrownRanch.com/cooperators/ and meet our cooperator team.

DOB:

Birth Date of Animal

REG#

Registration number assigned by the American Angus Association (AAA)

Max Acc. The presence of a Geneseek (GGP) or Zoetis (i50K) symbol indicates genomic data obtained through DNA testing have been incorporated into the above EPDs to ensure the highest possible accuracy for non-parent bulls.

\$W: AAA Index compares relative profitability per head for pre-weaning such as: BW, WW, Milk and mature cow size.

\$B: AAA Index compares relative profitability per head for post-weaning traits such as: post-weaning gain, feed efficiency and carcass merit

F:G EPD is a genetic prediction of relative differences in feed efficiency. Lower F:G EPDs indicate less feed will be consumed to produce one pound of gain.. This EPD is calculated using Feed Intake data through the \$Profit genetic evaluation.

\$Profit is an Economic Selection Index comparing bulls' impact on profitability over their productive life (100 calves).

\$Profit % rank compares an individual animal to all animals that have been evaluated in \$Profit multi-breed genetic evaluation of over 1 million head.

Dolcility Score Every RAB bull is individually scored 1-5 for dolcility where 1 represents the most dolcile.

Program Designation

Designation means calves out of this bull are eligible for this value added program. Top Dollar Angus and/or On Target for CAB.

What do Lots 1 & 2 as well as Dad and I have in common with Meryll Frost, the most courageous athlete of 1945? Mr. Frost is attributed with coining this phrase, "Behind every great man - is a great woman." Take a look at their mother pictured below. In the race for maximum \$B, too many Angus programs have forgotten that the key to commercial cow/calf profitability is to have good mommas. This bull does all things well.

Selecting the right bull is about as important as selecting the right spouse. I was blessed on the spouse selection, but we depend on sound science to help us select & produce the best bulls. I was trained to develop and use ALL-PURPOSE selection indexes 27 years ago. \$Profit is the most scientifically advanced all purpose index I have found and since AAA has yet to even produce an all purpose index, we think \$Profit is by far the best way to find the bulls that make you the most money. This is the highest \$Profit bull in the entire sale. This bull is a breed leader in so many traits including \$W & \$B. Yes, you can have it all.

Feed Efficiency is the next great frontier in the beef industry. We believe we can improve your profit the most by improving feed efficiency so that you need less feed, hay and pasture to produce more high quality beef. You can best manage what you measure & that is why we have invested hundreds of thousands of dollars to measure this trait of such economic importance. Your heifers & cows won't care about the birthmark on his cheek. You should own this breed leader.

Black-Red Angus Bull Sale Catalog Data

HdBr: RAAA HerdBuilder Index compares relative profitability per cow exposed when bulls are used on heifers and cows, replacements are kept, and all steers and cull heifers are fed and marketed on a value based grid.

GrM: RAAA GridMaster Index compares relative profitability per cow exposed when bulls are used on mature cows but no replacements are kept, and all progeny are fed and marketed on a value based grid.

Red Angus EPDs and Percentile Ranks:

CED - Calving Ease Direct

WW - Weaning Weight

Milk - Daughters Milk Production

STAY - Longevity Epd

REA - Rib Eye Area

BW - Birth Weight

YW - Yearling Weight

HPG - Heifer Pregnancy Rate

MARB - Marbling

Percentile Ranks: Percentile ranks indicate where this animal's EPDs rank vs. other non-parent animals in the RAAA database. A 1% rank indicates that animal is in the top one percent of the approximate 150,000 non-parent animals in the RAAA database

F:G EPD is a genetic prediction of relative differences in feed efficiency. Lower F:G EPDs indicate less feed will be consumed to produce one pound of gain.. This EPD is calculated using Feed Intake data through the \$Profit genetic evaluation.

\$Ranch is an Economic Selection Index comparing bulls impact on profitability per calf when keeping replacement females and selling calves at weaning time

\$Profit is an Economic Selection Index comparing bulls' impact on profitability over their productive life (100 calves).

\$Profit % rank compares an individual animal to all animals that have been evaluated in \$Profit multi-breed genetic evaluation of over 1 million head.

Docility Score Every RAB bull is individually scored 1-5 for docility where 1 represents the most docile.

Top Dollar Angus
Designation means calves out of this bull are eligible value added program.

Sale Lot Number:

All bulls and registered females sell in catalog order

Animal ID:

animal's tattoo no.

Herd:

identifies cooperators (herd of origin.) Go to RABrownRanch.com/cooperators/ and meet our cooperator team.

DOB:

BirthDate of Animal

REG#

Registration num-Bulls are registered with the RAAA. This Red Angus Asso- indicates their respective registry category (RAAA)

CAT:

All Red Angus and Black/Red Angus Bulls are registered with the RAAA. This indicates their respective registry category and percent Angus parentage.

Max Acc. The presence of a Geneseek (GGP) or Zoetis (i50K) symbol indicates genomic data obtained through DNA testing have been incorporated into the above EPDs to ensure the highest possible accuracy for non-parent bulls.

RAB Exclusive Star Rating System

Compares bulls across breeds in 4 areas of economic relevance: Calving Ease, Growth, Carcass Merit and Efficiency. In general more stars indicate greater genetic improvement. There is a more detailed explanation of the RAB Star System in the front of the catalog.

Welcome to a new and progressive set of Angus bulls. These aren't new to our program as we started our first combination of these Black Angus / Red Angus in 1996. Every year astute cattlemen and women tell me that these are the best set of bulls in the sale. This year is no different as many of these bulls combine the breed's best Angus bulls with some of the most recognized and respected Red Angus dams into a unique and highly profitable piece of germ plasm. Purebred cattlemen, as many of you know red hided cattle out of black genetics are making quite a splash. Commercial cattlemen, an added bonus is that all of these bulls are eligible for the Red Angus FCCP program, and yes, the homozygous black bull is eligible as well. Put these bulls on a set of black cows and imagine the extra profit potential of the calves that are FCCP documented as well as having a chance at CAB. You really can have the best of both worlds.

The majority of these bulls are heterozygous for the color gene, meaning they carry a recessive red gene.

Igenity® DNA Profile for the Commercial Cattleman

Can you tell which heifer has the superior maternal, performance, or carcass traits? – Igenity DNA profiles can.

Confident Selection.

Igenity DNA profiling helps commercial cattle producers confidently select replacement heifers for traits that have a major impact on economic productivity.

Valuable insight.

Igenity scores and rankings enable informed decision-making on heifer selection and marketing strategies including custom indexes you build on Igenity Beef Dashboard, delivering a competitive edge.

"NGO would like to thank R.A. Brown Ranch for their pioneering efforts to establish the value of genomic testing. Buy your R.A. Brown Ranch Genomic Enhanced bulls for greater confidence."

This stud is a herd changer for end product merit. Whether you need improved carcass quality, muscling or extra pounds he has you covered with his exceptional EPD set and superb GridMaster Index. Sure Fire is becoming the premier calving ease and carcass sire in the Angus breed. We think so much of this high \$Profit bull that we used him in both our Elite Nucleus and carcass test herds.

Help yourself to this full ET brother to the previous lot. Feed efficiency is the next great frontier in the purebred industry. Get ahead of the curve by selecting one of these full brothers that excel at feed to gain. Whether you market your steers on the grid or sell bulls to customers that do, you need to invest in bulls like this.

Take a look at this stylish made herd bull. If you get this bull back to the ranch make sure that you stick him in the front pasture so you can show off to your neighbors a little. His outstanding dam is one of the top daughters we ever raised out of Conquest and sports a superior 105.7 MPPA. With maternal genetics like that you sure might want to keep every daughter out of him.

You want to talk about a calving ease deluxe bull? This herd bull's combination of low actual birth weight, impressive CED and BW EPDs, as well as 5 star CE rating should put a smile on your heifers' faces. He is so much more than "just" a heifer bull, check out the incredible fertility and end product merit that he brings to the table. Little wonder that he earns so many stars on our exclusive rating system.

Short ears from being born on a cold night, but don't worry, all of his calves will be born with full ears. He is sure to add power, muscle, capacity and pay weight to your next calf crop and do it with amazing efficiency. He is like that 1 ton, 4 wheel drive, dually pick up that we have been looking for that gets 30 miles per gallon.

NEW PEN This bull leads us into a pen of 10 bulls that our family chose to use on our own cows this past year. Enjoy using this bull on heifers to get calves born easily and then grow fast and produce great replacement females. All of our used bulls are healthy, tested and ready to use their experience to your advantage.

We like bulls that increase profit and here is a real powerhouse that should do that very well with excellent carcass premiums with moderate sized daughters that should make great cows.

I individually evaluate every bull in this sale for a multitude of traits including docility. This power house is impressive, but not quite as tame. Any wild ones were culled, but we call this a cowboy's bull.

Here we go back into our black/red carriers. This is one of the best sons of Redemption that we have ever sold. If you have a set of straight black cows and want to incorporate the excellence of Redemption into your herd you owe it to yourself to go take a look at this outstanding piece of germplasm. Moderate birth, growth, fertility, optimal milk and end product merit, what more could you want.

If you sell by the pound you had better take a look at this stud. With his performance EPD set he can pay for himself in a hurry. He can turn your carcass program around in a hurry, check out the single digit rankings of his end product EPDs. With those kinds of figures it's easy to see how he earns his GridMaster Index and his 5 star carcass rating.

OH, MY! This prospect posts the highest \$Profit of all the black/red carrier bulls. It's certainly easy to see why when you study his elite rankings for carcass EPDs and Gridmaster Index. Notice his stellar rankings for calving ease, fertility and longevity and you can see how he earns such a high score for HerdBuilder Index.

If you need to simultaneously increase the 3 "M's" (marbling, muscling and maternal) as well as improve the docility of your next calf crop you need to take a look at this super quiet bull. Check out that IMF ratio as well as his top of the charts MB. He gets it done on REA and CW as well. He's backed up by an outstanding dam that post an impressive 105.3 MPPA.

NEW PEN These 2 year old bulls can be found in the far north, net wire pens, across the gravel road. This bull was selected by our family to use on our own cows this past year. All of our used bulls are healthy, tested and ready to use their experience to your advantage.

Here we go back into the black/red carrier 18 month old bulls. These red gene carrier bulls are a great way for our customers to double dip when it comes to marketing their calves to potential customers. If you have a straight black herd your buyers can get the benefit of buying age and sourced verified calves with the Red Angus FCCP tag plus the chance of producing CAB eligible calves.

We are heading into our last pen of black/red carrier Angus bulls. Traditional Black Angus bull buyers really owe it to themselves to go take a look at these cousins to the bulls they normally buy, we believe they will be happy they did. Every year we have people tell us that they are their favorite group of bulls in the entire sale.
